Focus on Tech-based Entrepreneurship in an interdisciplinary Programme, resulting in the creation and management of a business in healthcare.
- 2015 - 2017** **MASTER OF SCIENCE | SOUND AND VIBRATION**
Chalmers University of Technology
Focus on Environmental & Building Acoustics, Sustainability Transitions, Soundscaping and interdisciplinary Urban Planning. Thesis written in the Challenge Lab, led by John Holmberg.
Thesis: Redefining the Urban Edge - Walkable Soundscapes in Public Space
- 2011 - 2015** **BACHELOR OF SCIENCE | STRUCTURAL ENGINEERING**
Bochum University of Applied Sciences
Studies in the field of Structural Engineering with focus on Reinforced Concrete. Scholarship recipient 2012-2014 (Deutschlandstipendium).

EXPERIENCE

- 2022/10 - Today** **BASF | GOTHENBURG**
Market Development Specialist
German multinational chemical company and the largest chemical producer in the world. Development for Go-To-Market plan, stakeholder management, pre-sales and sales efforts and marketing strategy for a polyurethane based asphalt binder. Focus on climate transition and preparations for extreme weather events (skyfall) in Scandinavia where the product can be applied to. Stakeholders range from large asphalt producers to public sector (municipalities) and research.
- 2022/12 - Today** **PASCALSSON AB | GOTHENBURG**
Co-Founder & Manager
The company encapsulates **Papi's Pierogi**, a mobile food truck and catering service. Included in this is the production of the dumplings from scratch, preparation and selling (frozen or prepared from the truck/catering). Main responsibilities lie in administration such as financials, marketing, branding, staff management. Additionally, early stage business development activities, such as stakeholder management with private and public actors, and event organisation in that realm.
- 2018/07 - Today** **GÖTEBORG WALKING TOURS | GOTHENBURG**
Founder & Manager
Tour provider for personalised and standardises tours. The mission is to provide cultural and historical knowledge to travellers of all budgets and by this promote exchange between them. Establishment and administration of the company (branding, marketing, etc.) and staff management of currently 6 tour guides. Clients range from single travelers to large corporations for team-building related activities.

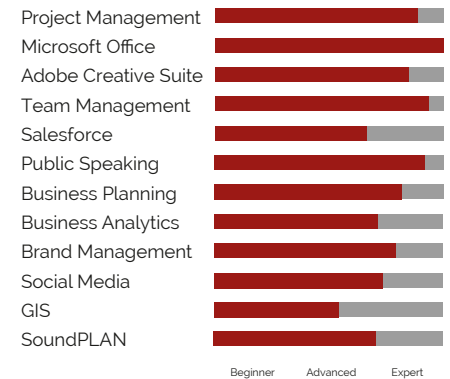

STATEMENT

As a self-confessed nerd, I am passionate about what I do for a living and my goal is to connect people and businesses with the right services. I have worked as an engineer, business developer and communicator, which has given me valuable experience in engaging with people from different backgrounds and cultures.

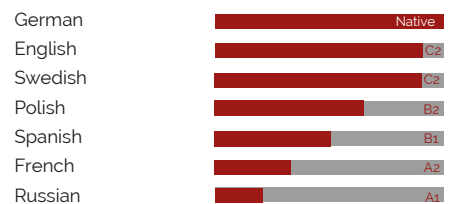

The path to a sustainable future is not obvious, nor is it simple. Advanced technology cannot stand by itself, but need to be connected to viable business practices and the socio-economic consequences.

I am ready to act as a bridge between technology, business and communication. And with that, contribute to a sustainable future.

SKILLS

LANGUAGES

EXPERIENCE

2021/02 - 2022/09

RAMBOLL | GOTHENBURG

Acoustician in Smart Mobility

Global architecture, engineering and consultancy company focused on sustainability. As Acoustician within Smart Mobility (Malmö) I was responsible for noise-related studies for, primarily, infrastructure projects such as highways or railways. This has been done with unique solutions on a case-by-case basis tapping into the variety of stakeholder needs, such as public interests.

Additionally, leading of small-scale projects and reporting of the end product to clients.

2018/11 - 2019/09

ASIA-EUROPE FOUNDATION (ASEF) | SINGAPORE

Communications Officer

Intergovernmental, non-profit organisation with the goal of creating more understanding between Asia & Europe. Based in Singapore, my main responsibilities lied in Social Media communications. Ranging from strategising, graphic design with Adobe Creative Suite, copywriting with diplomacy in mind and finally planning and administrating with management tools (Hootsuite). Photography on events and communication with diplomats from 51 countries were also among the responsibilities.

2017/10 - 2018/10

AFRY EFTERKLANG | GOTHENBURG

Acoustician in Building & Environmental Acoustics

Swedish-Finnish supplier of engineering, design, and advisory services. As part of Efterklang, the acoustics focused part, responsibilities lied in measurements for real estate projects (structure-borne- and air-borne sound insulation), as well as building inventories for large-scale infrastructure projects according to industry standards.

2014/11 - 2015/10

ZPP INGENIEURE AG | BOCHUM

Structural Engineer

Medium-sized engineering firm in Germany with focus on infrastructure-related projects. I was part of the structural department, based in Bochum. Responsibilities in conducting structural calculations for different construction projects with industry standard software as well as reporting for client end products. By leveraging these tools, I effectively communicated project updates, findings, and recommendations to both internal and external stakeholders.

2013/05 - 2014/11

FRAUNHOFER RESEARCH INSTITUTION IEG | BOCHUM

Research Assistant

Research institute focusing on geothermal energy, based at the Bochum University of Applied Sciences and representing approximately fifteen universities world-wide. As Research Assistant I was responsible for the implementation and evaluation of thermal conductivity measurements (Thermal Response Test, Thermal Conductivity scanner), office tasks such as report writing and assisting the professors in lecture preparations. Additionally I was representing the institute at conferences towards stakeholders.

VOLUNTEERING

ERASMUS STUDENT NETWORK

Communications Manager

2016-2019

The Erasmus Student Network (ESN) is a non-for-profit international student organisation active in over 40 countries.

During my tenure ranging from 2016-2019, I was active in a variety of roles, such as most prominently Communications Manager for the entire Swedish country, representing more than 14 local organisations and more than 200 volunteers.

Additionally, I was responsible for the communications strategy of the ESN headquarters project ExchangeAbility, leveraging a more inclusive way of communication towards students with disabilities. From the headquarters in Brussels, I was working with both internal and external stakeholders, such as Higher Education Institutes.

BOCHUM UNIVERSITY OF APPLIED SCIENCES

President of the Student Union

2011-2015

During my Bachelor studies, I was active in the student union in many roles, such as Communications Manager for the executive part, but also as representative towards the faculty council and the senate, effectively working for student interests.

During my final year of studies, I was elected president of the student union, in which my role was to represent the students' interests towards the University, external stakeholders and internally. This included sensitive decision making processes in a democratic parliament setting, as well as working towards a more inclusive campus experience.

Most notably, the organisation of a variety of event activities and the formalisation and legalisation of the union's activities can be mentioned.
